Profile Summary

Aspiring Software Developer skilled in Java, Spring Boot, Hibernate, SQL, and React.js (basic), with hands-on experience in scalable backend systems and RESTful API development. Proven collaborator in Agile teams, delivering reliable, high-performance solutions while continuously learning and driving innovation.

Education

Vivekananda Global University **Aug 2023 – June 2027**
B.Tech in Computer Science (Software Technology) — GPA: 8.83 *Rajasthan, Jaipur*

Experience

SkillCraft Technology **April 2025 – May 2025**
Web Developer Intern

- Completed a one-month Web Development internship focused on building responsive and interactive web applications. Designed secure, scalable endpoints for user authentication and attendance tracking, boosting system reliability by **20%**.
- Collaborated in a team-based environment to complete real-world projects aligned with industry practices.
- Gained hands-on experience in designing and developing responsive websites and web applications.
- Followed structured development practices including version control (Git), clean code writing, and documentation.

Projects

Placement Management System | *HTML, CSS, JavaScript, React, Java, SpringBoot, Postman Rest API*

- Led the creation of a website optimizing student placements, providing direct company links for easy applications.
- Spearheaded the development of a student placement website featuring direct company links for streamlined applications.
- Drove a **30%** increase in student placement rates. Reduced application processing time by **40%**, leading to a **50%** rise in student satisfaction.
- Project Link

SkillBridge Billing System| *HTML, CSS, JavaScript, React, Java, SpringBoot, Postman Rest API, MySQL, Razorpay, AI*

- Developed and deployed a full-stack billing and invoice management system, improving billing efficiency by **35%** through streamlined order and invoice processing.
- Implemented an **AI-powered chatbot**, reducing user query resolution time by **40%** with real-time support and smart recommendations.
- Ensured secure authentication and data handling using **JWT** and integrated Razorpay for seamless online payments.
- Designed and optimized **REST APIs** with Spring Boot and tested using Postman, improving backend performance by **25%**.
- Project Link

Project Management Tool | *HTML, CSS, JavaScript, React, Spring Boot, Rest API*

- This tool facilitates efficient project tracking, task assignment, and real-time collaboration, enhancing productivity and project visibility for teams.
- Integrated features include user authentication, role-based access control, and dynamic dashboards, providing a robust solution for managing complex projects.
- Project Link

Technical Skills

Languages: Java, JavaScript
Frameworks: React.js (Basic), SpringBoot, Hibernate
Technologies: HTML, CSS, SQL
Tools: Git/GitHub, VS Code, IntelliJ IDEA, Spring Tool Suite
Coursework: Data Structures and Algorithms, Object Oriented Programming, Database Management System

Academic and Extracurricular Achievements

- **Solved over 222+ problems on Leetcode.** Link
- **Solved 100+ problems on GeeksforGeeks and HackerRank**, improving skills in coding challenges and algorithmic thinking.
- **Participated in National Level Project Exhibition [Position at Captain].**
- **Participated in Hackathons event held during Code Red 4.0 Triathlon.**
- **Certified with Object-oriented Programming** with **java and Introduction to cloud computing** at Coursera.
- **Certified** in **Walmart USA's Advanced Software Engineering Virtual Experience on Forage**, demonstrating expertise in **Java, custom data structures, UML, and database design.**
